

December

IN YOUR GARDEN

Gardeners should be working towards harvesting and garden displays for Christmas enjoyment. As holiday mode takes hold, enjoy relaxing evenings in the garden with a hose in one hand and a drink in the other!

Sow your favourite seeds such as Ageratum, Cosmos, Cyclamen, Rudbeckia, Marigolds, and Zinnia.

Flower Garden

A layer of Tui Mulch & Feed around the base of trees and shrubs will conserve moisture and protect roots from the hot sun.

Lift spring flowering bulbs once the leaves have died down completely, and store in a cool dry place.

Remove dead flowers from Roses to encourage new blooms.

Water gardens in the evening or early mornings, especially plants in containers which will dry out quickly in hot or windy weather.

Plant seedlings such as Chrysanthemum, Dianthus, Gypsophila, Portulaca and Salvia.

Container Gardening

Use Saturaid in potted plants to help them survive infrequent watering while you're away on holiday. This can be added without repotting the plants.

Fill pots with flowering annuals such as Petunias, Marigolds, Phlox or Impatiens for a bright Christmas and summer display.

We've been helping kiwi's grow great gardens since our humble beginnings in 1912. Still proudly New Zealand owned by locals in your community, Palmer's is the place to be for all things gardening.

Palmer's

December

IN YOUR GARDEN

Protect citrus, pip and stone fruit trees with FreeFlo Cooper Fruit & Vegies Fungicide to prevent, verrucosis, leaf curl and fungus diseases.

This is a month of rapid growth so ensure you pay attention to watering, weeding, feeding and spraying.

Kitchen Garden

Apply a layer of Tui Mulch & Feed around vegetable plants to conserve soil moisture, compost works well.

Plant seedlings of LETTUCE, BROCCOLI, CABBAGE, CAULIFLOWER, SPINACH, TOMATO, SWEETCORN, BEETROOT, PUMPKIN, COURGETTE, CAPSICUM, EGGPLANT, MELON, CUCUMBER AND GHERKIN.

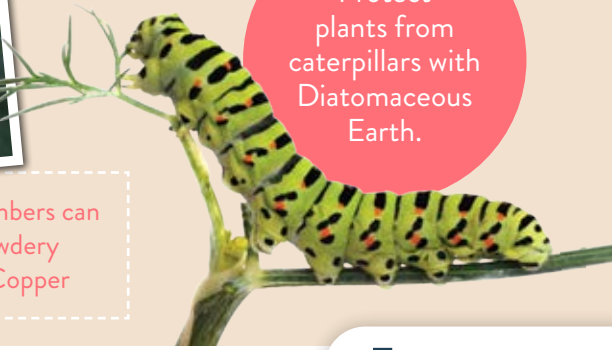

Feed tomatoes once a week with a fast acting liquid such as Tui Organic Seaweed Tonic. Remove laterals (side growths) on tall tomato varieties as they grow and ensure they are firmly staked. Water regularly.

Protect plants from caterpillars with Diatomaceous Earth.

Courgettes and cucumbers can be protected from powdery mildew with FreeFlo Copper

Lawns

Raise the lawn mower up a level for the summer season. If cut too short, lawns will dry out too quickly.

Water lawns in dry weather and apply fast acting lawn food such as Tui Lawn Force to keep lawns fresh and green

All our plants are of the highest quality, but if something fails to grow in your garden, we'll simply replace it for you - that's our Palmers Promise.
