

October

IN YOUR GARDEN

This is one of the most exciting gardening months on the calendar! It is the traditional time to plant tomatoes and vegetables and with the temperature rising all garden plants start springing to life.

Sow seeds of your favourite flowering annuals directly into the ground such as Sunflowers, Alyssum, Marigolds, Cosmos and Nasturtium. Sow into trays for transplanting later; Carnations, Dahlia, Petunia and Gerberas.

Flower Garden

Plant new roses and use Garden X Compost and a long term slow release fertiliser like Tui Enrich Rose, Camellia, Azalea and Gardenia Controlled Release Fertiliser at planting time.

Plant perennial and summer flowering bulbs such as Dahlia, Begonia, Gladioli and Calla Lily.

Plant up hanging baskets and terracotta pots with flowers for summer.

Add a layer of Tui Mulch & Feed around all plants to conserve moisture and check that your watering systems are working.

Lawns

Sow new areas of lawn now! Tui offers a great range of lawn seed, including:

Tui Ultimate Green, perfect for creating a top-quality, lush green lawn suitable for most grass areas.

Tui Tough Turf, ideal for a resilient, hardwearing lawn that can withstand tough conditions.

We've been helping kiwi's grow great gardens since our humble beginnings in 1912. Still proudly New Zealand owned by locals in your community, Palmers is the place to be for all things gardening.

Kitchen Garden

October

IN YOUR GARDEN

Plant passionfruit, rhubarb and tamarillos.

Control slugs and snails with snail and slug bait or Quash, which is safe around kids and pets.

Plant your favourite seedlings such as;
TOMATOES, BEANS, PEAS, CARROTS, RADISH, BEETROOT & SPINACH.

EGGPLANT, LETTUCE, CUCUMBER, COURGETTES, CAPSICUM, PUMPKIN & CAULIFLOWER

These seeds can be sown directly into trays or directly into the ground.

Liquid feed all plants with Tui Organic Seaweed Plant Tonic which gets absorbed by plants quickly.

Plant new herbs, including basil and parsley, so that new plants are established before existing plants go to seed.

Feed all citrus trees with Tui Performance Naturals Citrus and Fruit Fertiliser.

Container Gardening

Increase watering of all plants in containers or pots as the weather warms up. Adding Tui Organic Seaweed Plant Tonic at each watering will give you healthier plants and flowers.

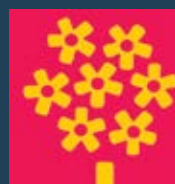

Repot houseplants if you haven't already done so including orchids after flowering.

All our plants are of the highest quality, but if something fails to grow in your garden, we'll simply replace it for you – that's our Palmers Promise.
